

# LICOP Learning Journey

November 3<sup>rd</sup>-5<sup>th</sup> 2025 – Indonesia

## Overview

Learning journeys are an opportunity to see and connect with what's happening "first hand" and to speak directly to producers and their communities. Each learning journey will have approximately 15-20 attendees, representing diverse supply chain stakeholders, including brands, traders, NGOs, and implementing organizations. LICOP will have at least two different simultaneous trips and will confirm who is on each trip in August/September, depending on registrants and finalized itineraries.

## Goal

Open, honest dialogue to better understand challenges and opportunities for living income initiatives for smallholder farmers in Indonesia and Asia more broadly.

## Key themes

- The link between regenerative agriculture and farmer income
- On-farm income diversification, including payments for ecosystem services
- The impact of high cocoa and coffee prices on farm livelihood and investment
- EUDR, youth, gender, innovative purchasing practices, cooperative strengthening and more!

## Cost

\$450 per attendee for all on-ground expenses (transportation, food, 2 nights hotel, translation, etc.). This does not include round trip flight between Jakarta and learning journey locations (destination airport TBC but likely \$70-\$120). This trip costs already includes a partial trip subsidy from LICOP.
